## **Proud winners of TechCities Manchester Award**

Dec 1, 2015

We are proud to have returned to Manchester as winners of this year's TechCities Awards. The Northern Quarter in the very heart of Manchester, where innovation and entrepreneurship thrive, has been our home for the last two years and has inspired and supported us as part of the digital community.

To us, winning the Award is a truly valuable achievement because it gives us recognition as one of the UK's top next-generation digital businesses. More importantly, it is recognition of our courage and passion to challenge the status quo in pursuit of a new and better future for business intelligence as a team, of our dedication to our product and clients, of our commitment to self-improvement.

To us, the Award is not only an acknowledgement that we are grateful for. It is also a reminder of the potential we have to develop and to make an even greater impact, and an inspiration to continue embracing the infinity of possibilities which business intelligence holds.
